

Dear Valued Customer,

We're pleased to share some good news! Manchester Industries, a subsidiary of Clearwater Paper Corporation, is opening a new converting operation in Columbia, South Carolina.

For nearly 50 years the Manchester brand has been synonymous with reliability, responsiveness and exceptional service. This investment in a new location reinforces that commitment and expands our ability to meet your evolving needs with even greater speed and efficiency.

This new site will support Clearwater Paper's mill in Augusta, Georgia (acquired in May 2024), and strengthen our strategic mill partnerships from across the country and around the globe. We anticipate operations in Columbia will begin in the **fourth quarter of 2025**, with the site ramping up by **the end of the year**.

We are excited about what this means for you: market-leading inventory, streamlined logistics and the continued dedication to service you've come to expect from Manchester Industries.

If you have questions or would like to discuss how this expansion might benefit your company, please reach out to your Manchester sales representative or visit [Contact - Manchester Industries](#).

Thank you for being a part of our journey.

Warm regards,

Robbin Rodgers
Vice-President
